## SENIOR MOBILE ENGINEER

With **7+ years of experience** designing, architecting, and scaling mobile and full-stack systems across iOS, Android, and web platforms. Leading complex technical initiatives, driving architectural decisions, and **modernizing legacy systems** into **high-performance**, maintainable platforms. Deep expertise in **React Native**, React, and Node.js, with hands-on ownership of system design, performance optimization, and cross-team collaboration. Known for mentoring engineers, raising engineering standards, and delivering reliable production software in regulated. Committed to continuous technical growth.

### PROFESSIONAL EXPERIENCE

#### Method (Remote)

Mobile Software Engineer  
Northwell Hospital

August 2020 – Present **(5 Years)**

- **Develop Android, iOS, and web** applications using the latest **ES6/7** features.
- Execute integration and **unit tests** using **Jest** to ensure optimal performance and reliability.
- Debug, maintain, and implement new features based on product team requirements.
- Build & test new reusable components in **Storybook** using React.
- **Upgraded React Native Navigation** and **implemented Deep Linking** to enhance app routing, integrating external links.
- **Technology:** JavaScript, TypeScript, React, React Native, Redux, Redux-Saga, REST API, Yarn, ES7, Jest, Jira, Git Bucket, Xcode, Android Studio, Storybook.

Wegmans

- **Implemented** and support **Deep Linking**, Share Extensions (iOS), and Share Intent (Android)
- **Native Module** setup, exposing instances of Java/Objective-C in JavaScript.
- **A/B testing**, execute unit testing, integration testing, & E2E testing using **Jest**
- **Maintain and add a new scalable state management** architecture using Zustand.
- Collaborate with product, design, backend, and stakeholders.
- **Technology:** JavaScript, TypeScript, React Native, Zustand, API, Yarn, ES7, Jest, Jira, Git.

**YieldStreet** (New York, NY)

**December 2018 – July 2020 (2 Years)**

Mobile Engineer

- **Create company standards and document best practices** for Android/iOS development.
- Ensure sound development and production of Android and iOS apps, achieving native-like performance.
- Diagnose, fix bugs, and conduct unit testing to enhance app stability.
- **Innovate mobile features, architectures, and frameworks** to deliver a best-in-class product for the financial services industry.
- **Technology:** JavaScript, React Native, Redux, Redux-Saga, REST API, WebSocket, Yarn, ES7, Jest, Xcode, Android Studio.

**SavingStar** (Boston, MA)

**July 2017 – March 2019 (2 Years)**

Mobile Developer

- **Lead developer for both iOS and Android platforms**, driving end-to-end app development.
- Collaborate with product management, back-end developers, and QA teams to ensure seamless workflows.
- **Find ways to constantly innovate, design, and use best practices** for coding mobile apps.
- Fix bugs, maintain, and implement new features based on user feedback and product requirements.
- **Technology:** JavaScript, Titanium, React Native, Node.js, REST API, MongoDB, SQL DB, JSON, Xcode, Android Studio.

---

## EDUCATION

**General Assembly (New York, NY)**

**2016–2017**

Full Stack Web Development

**Queensborough CC (Queens, NY)**

**2009–2011**

A.S. Computer Engineering
